

23rd April 26

Dear Parents/Carers,

It has come to our attention that some children have been accessing and playing a game called *Poppy Playtime*.

While the game appears to have a toy-like, child-friendly style, it includes jump scares, disturbing themes and violent imagery that are not suitable for children aged 12 and under. Exposure to this type of content can be upsetting and, for some children, may lead to worries, anxiety or nightmares.

Children may come across this content in a variety of ways, including through YouTube videos, non-restricted games on platforms such as Roblox, or via older siblings, even if they are not playing the game directly themselves.

To help keep children safe and support their emotional well-being, we kindly ask that parents and carers continue to monitor their child's online activity and the content they are accessing. We believe this will help ensure that children are engaging with age-appropriate games and videos that support positive and safe online experiences.

Many Thanks

Davinia Rogers
