4. Personal education plan (PEP)

All care experienced children must have a care plan; PEPs are an integral part of this care plan.

The PEP is an evolving record of what needs to happen for a pupil to enable them to make the expected progress and fulfil their potential. The PEP will reflect the importance of a personalised approach to learning which meets the identified educational needs of the child.

The school with other professionals and the child's carers will use the PEP to support the child's educational needs, raise the child's aspirations and improve their life chances. All relevant bodies, such as the LA, the designated teacher and carers, will involve the child in the PEP process at all stages.

The PEP will address the pupil's full range of education and development needs, including:

- On-going catch-up support, which will be made available for children who have fallen behind with work.
- Suitable education provided by the LA, where the child is not in school because of suspension or exclusion.
- Transitional support where needed, such as if a child is moving to a new school.
- School attendance and behaviour support, where appropriate.
- Support to help the child meet their aspirations, which includes:
    - Support to achieve expected levels of progress for the relevant national key stage and to complete an appropriate range of approved qualifications.
    - Careers advice, guidance and financial information about FE, training and employment, that focusses on the child's strengths, capabilities and the outcomes they want to achieve.
    - Out-of-school hours learning activities, study support and leisure interests.

The VSH and the designated teacher will ensure that information is included within a care experienced child's PEP surrounding how they are benefitting from any use of PP+ funding to improve their attainment.

Any interventions supported by PP+ will be evidence-based related to best practice in EEF toolkit and in the best interests of the pupil.

5. Working with agencies and the Virtual School Head (VSH)

The school will ensure that copies of all relevant reports are forwarded to the care experienced Childrens social workers, in addition to carers or residential social workers.

The school will support the coordination of PEP meetings with the social worker responsible.

The school will work with other agencies to exchange information, such as changes in circumstances, exclusions or attendance issues, taking prompt action, where necessary, to safeguard care experienced and previously care experienced children.

Behaviour management strategies will be agreed between the VSH and the school, to ensure challenging behaviour is managed in the most effective way for that individual child.

The designated teacher for care experienced and previously care experienced children will communicate with the VSH and child's social worker to facilitate the completion of the PEP.

Through the designated teacher, the school will work with the VSH, social worker and other relevant agencies to monitor any arrangements in place so that actions and activities recorded in the child's PEP are implemented without delay. The designated teacher will communicate with the VSH and agree on how PP+ can be used effectively to accommodate the child's educational attainment and progress.

PP+ for previously care experienced children will be allocated directly to, and managed by, the school. The school will work with the VSH to manage allocation of PP+ for the benefit of our cohort of care experienced children or, previously care experienced children, and according to their needs. If deemed necessary, the school will allocate an amount of funding to an individual to support their needs.

The designated teacher will ensure consistent and strong communication with the VSH regarding care experienced children who are absent without authorisation. In Swindon Virtual School Welfare call collect this information from the school.

The school will share their expertise on what works in supporting the education of care experienced and previously care experienced children.

6. Training

The designated teacher and other school staff involved in the education of care experienced and previously care experienced children will receive the appropriate training, including information about the following:

- School admissions arrangements
- SEND
- Attendance
- Exclusions
- Homework
- Managing and challenging behaviour
- Promoting positive educational and recreational activities
- Supporting pupils to be aspirational for their future education, training and employment
- Safeguarding

All training will ensure staff are equipped with the skills, knowledge and understanding necessary to keep care experienced and previously care experienced children

7. Safeguarding

The school recognises that many care experienced and previously care experienced children have experienced trauma, abuse or complex family circumstances that have led to them being placed in care, and will ensure that all staff are aware that experiences of adversity such as these can leave pupils vulnerable to further harm or exploitation.

All staff will be trained to recognise signs and indicators of safeguarding concerns and will ensure that extra vigilance is practiced in observing and identifying these indicators amongst care experienced and previously care experienced children as soon as possible.

Where a care experienced and previously care experienced child has a social worker, this will inform decisions about safeguarding, e.g. responding to unauthorised absence or missing education where there are known safeguarding risks.

The Headteacher will implement appropriate pastoral support services in place throughout the school to ensure that the welfare of care experienced and previously care experienced children can be adequately protected to the extent that reflects their increased vulnerability.

Staff will be encouraged to report to the DSL any concerns they have over care experienced and previously care experienced children in line with the processes outlined in the Child Protection and Safeguarding Policy.

Staff will be regularly encouraged to look for signs of bullying and report to the designated teacher if they believe a care experienced and previously care experienced child is being bullied, as this can have a particularly negative impact on pupils who have early experiences of rejection or abandonment.

8. Pupil mental health

Care experienced and previously care experienced children are more likely to experience the challenge of social, emotional and mental health (SEMH) issues which can impact their behaviour and education. The designated teacher will have awareness, training and skills regarding a child's needs and how to support them in relation to behaviour management and mental health.

The designated teacher will work with the VSH to ensure the school is able to identify signs of potential mental health issues, understand the impact issues can have on care experienced and previously care experienced children, and knows how to access further assessment and support, where necessary.

The school understands that the increased frequency of mental health problems amongst care experienced and previously care experienced children may present a barrier to adequately identifying when mental health problems are indicative of a safeguarding concern.

For this reason, the designated teacher will ensure that they, and all staff who maintain regular contact with care experienced and previously care experienced children are vigilant surrounding any changes in the mental health, behaviour, social inclination or mood of these pupils.

The school's senior mental health lead will work alongside the designated teacher to promote the wellbeing and mental health of LAC and previously-LAC, and will always either be a member of, or be supported by the senior leadership team and could be the pastoral lead, SENCO, or DSL.

9. Suspensions and Exclusions

Past experiences of care experienced and previously care experienced children will be considered when designing and implementing the school's Behaviour Policy.

The school will have regard to the DfE's statutory guidance 'Suspension and permanent exclusion from maintained schools, academies and pupil referral units in England'' and, as far as possible, avoid suspending/excluding any care experienced children where possible.

Where the school has concerns about a child's behaviour, the VS will be informed at the earliest opportunity. As far as possible, the school will engage proactively with the social worker or carer of a care experienced children to provide appropriate support for underlying issues that may be causing poor behaviour and improving this behaviour.

Suspension will only be used as a last resort, after the school and VSH have considered what additional support can be provided to prevent exclusion, and any additional arrangements to support the pupil's education in the event of suspension.

The school will inform parents that they can seek the advice of the VS on strategies to support their child to avoid suspension.

Permanent exclusion will only occur where there has been serious and/or persistent breaches of the school's Behaviour Policy or where allowing the pupil to remain in school would seriously harm the education or welfare of others.

10. Pupils with SEND

Support for care experienced children with SEND, who do not need an EHC plan, will be covered as part of the child's PEP and care plan reviews.

The SENCO, class teacher, designated teacher and specialists will involve parents when considering interventions to support their child's progress.

The designated teacher and the SENCO will ensure that care experienced and previously care experienced children with SEND are supported in line with the Special Educational Needs and Disabilities (SEND) Policy, with extra consideration given to the fact that some of the usual procedures for supporting pupils with SEND may lack applicability for care experienced children, e.g. where they are in residential care and, thus, will have their EHC plans taken care of by the LA rather than the general stipulation of the place where they are ordinarily resident.

11. Information sharing

Appropriate and specific arrangements for sharing reliable data are in place to ensure that the education needs of care experienced and previously care experienced children are understood and met. The arrangements set out include:

- Who has access to information on care experienced and previously care experienced children and how data will remain secure.
- How pupils and parents are informed of, and allowed to challenge, information that is kept about them.
- How carers contribute to and receive information.
- Mechanisms for sharing information between the school and relevant LA departments.

- How relevant information about individual pupils is passed between authorities, departments and the school when pupils move.

12. Monitoring and review

This policy will be reviewed on an annual basis by the designated teacher and the Headteacher. The next scheduled review date for this policy is November 2026.

All changes to this policy will be communicated to all relevant stakeholders.
